We present its salient points. He would nct, he says, improve the valley in the sense in which we speak of a park. This transcendently beautiful reserve dwarfs all man valley. Walks good and clean there must be; main ones, away from the roads and generally in shady locations, and avoiding straight lines, and so laid out as to insure good drainage; and those on the hillsides should be paved with stone to prevent washing away in winter and dust in summer. By all means abolish or hide all plank walks. cendently beautiful reserve dwarfs all man can accomplish. To attempt improvement would be preposterous. As to trails, he points out the necessity for a connecting trail from Glacier Point to Snow's, around the rim of the valley, by way of the Illouette Fall, and also for that all up the Illouette canyon, from below, to the foot of that fall. Excepting these, he saw no necessity for more works of this class, for there is so much alse to do of more importance. The is so much else to do of more importance. There is a deplorable lack in the valley of good footpaths to points of interest, and nothing in a small way would add so much to the comfort and enjoyment of a lengthened sojourn in the valley. Third—We denounce the system which makes patronage and spoils out of public offices; we denounce the practice of giving them to political managers for use in advancing personal political ends; we denounce the removal of faithful and competent officers in the absence of public reason; we denounce the practice of levying assessments and demanding contributions for party use from public officials; we denounce, severally and collectively, the evils and corruption which accompany the conduct of the Government, known as the spoils system, and which are inseparable from such methods of administration, and we denounce the system of "boss" rule and "machine" control, which, when tamely endured, makes the leaders autocrates and reduces the mass of citizenship into political bondage.

REPLENISHING!

Every inroad made in the MIL-LINERY STOCK by the season's trade has been met by new goods freshly bought, and we are rendering as splendid service now as a month ago. Our Millinery Force is most skilled and experienced, besides being thoroughly acquainted with every peculiarity of this season's fashions here and elsewhere.

Good Suits.

Almost every day someone learns with surprise of the great strides in perfection made of late by READY-MADE CLOTHING of the better sorts. By that we do not mean necessarily high-priced goods; but the well-designed, well-made, well-fitting suit at a moderate price. These we aim especially to keep in great abundance, and in so many sizes as to fit perfectly almost anyone. The difference in appearance between them and the made-to-order goods is often indistinguishable, while the cost is perhaps from a third to a half less. We mention to-day, at \$12 50, two suits for ordinary business wear: One is a neat, mottled, black and white cheviot, cut late style: the other is of a dark brown mixturethe coat cut sack fashion. Both are deserving of attention. Fancy Mixed Summer Suits, at \$17, \$19 and \$23. x

Spectacles and Eyeglasses we keep in every size, fit them properly with the use of a scientific instrument. Steel, rubber, gold and silver rims, with prices from 15 cents to \$7.

More Valises and Satchels have come, and now we know of nothing we have not got. Every size, from the smallest to the largest, with prices close to cost. Trunks and other traveling appurtenances, too, abound. x

Ladies' Soft, Straight-grained, Goat Shoe!

SIDE-LACE, \$2 50. EASTERN MADE, IN ALL SIZES, AND PUT UP IN BOXES. In appearance and wear they are far beyond what would be expected from the price. But our Shoe-room is full of just such surprises in men's wear, as well as in ladies' goods, and this reminds us to say that many men have found what they have long been searching for, in the Government Shoes, announced in these columns some two weeks ago. They combine comfort and durability in an unusual de-

DOMESTIC NEWS. Independent Pennsylvania Republican PHILADELPHIA, May 24th.—George Lear, who presided at the regular Republican Convention, occupied a seat on the platform when the Independent Republican Conven-

tion was called to order. Prayer was offered by Rev. D. C. Babcock, the noted Prohibitionist and Secretary of the Pennsylvania State Temperance Association. United States Senator Mitchell was chosen mporary Chairman, by acclamation, amide cheers and applause.

Mitchell returned thanks for the hor ferred on him, and said that the work of the Convention was not to nominate a ticket that would help the Democratic party, or would

port of the Republican party. [Applause.] This country had been founded upon the principles which secured equal rights to all men. When these principles were declared the Republican party was founded, and h can willing to be the slave, politically er otherwise, of any man. [Applause.] There must, in the order of things, be leaders, but not bosses. It would be well for the Conven-tion to declare against this system, and against bossism and machinism, and not only declare against them, but provide a remedy Anti-Debris controversy, strenuous efforts have been made to "Boycott" those who should refuse to take the side of one party or the other. In fact the cases in which this principle is sought to be availed of are becoming so numerous that it is necesdisposed to enforce this system (civil service reform), but he was sorry to say there was yet sary to inquire to what all this disposition toward coercion is tending.

For it must be recognized that "Boy-cottisg" is coercion, and of the most rigorous and tyrannical kind. REPLENISHING!

Every inroad made in the MIL-LINERY STOCK by the season's trade has been met by new goods freshly bought, and we are rendering as splendid service now as a month ago. Our Millinery Force is most skilled and experienced, besides being thoroughly acquainted with every peculiarity of this season's fashions here and elsewhere.

Good Suits.

Almost every day someone learns with surprise of the great strides in perfection made of late by READY-MADE CLOTHING of the better sorts. By that we do not mean necessarily high-priced goods; but the well-designed, well-made, well-fitting suit at a moderate price. These we aim especially to keep in great abundance, and in so many sizes as to fit perfectly almost anyone. The difference in appearance between them and the made-to-order goods is often indistinguishable, while the cost is perhaps from a third to a half less. We mention to-day, at \$12 50, two suits for ordinary business wear: One is a neat, mottled, black and arbite cheviet out late style; the white cheviot, cut late style; the other is of a dark brown mixturethe coat cut sack fashion. Both are deserving of attention. Fancy Mixed Summer Suits, at \$17, \$19 and \$23. x

Spectacles and Eyeglasses we keep in every size, fit them properly with the use of a scientific instrument. Steel, rubber, gold and silver rims. with prices from 15 cents to \$7.

More Valises and Satchels have come, and now we know of nothing we have not got. Every size, from the smallest to the largest, with prices close to cost. Trunks and other traveling appurtenances, too, abound. x

Ladies' Soft, Straight-grained, Goat Shoe!

SIDE-LACE, \$2 50. EASTERN MADE, IN ALL SIZES, AND PUT UP IN BOXES. In appearance and wear they are far beyond what would be expected from the price. But our Shoe-room is full of just such surprises in men's wear, as well as in ladies' goods, and this reminds us to say that many men have found what they have long been searching for, in the Government Shoes, announced in these columns some two weeks ago. They combine comfort and durability in an unusual de-

damages for injuries sustained by reason of adefective sidewalk on K street in June, 1880, came up on appeal in Department Two of the Supreme Court, and was submitted after argument by W. A. Anderson for the city, and Grove L. Johnson for appellant Tranter. This case involves the question of the liability of the city for any defective street or sidewalk, and is one of general importance. It was contended by the City Attorney that at common law there could be no liability against the city. That unless there was a liability imposed by statute no action could agent of the property-owner. That under recent decisions of the Supreme Court the addition she exercises over the young ladies city cannot enforce any repairs to streets or sidewalks except by criminal prosecutions. largely given confidence to the people that sidewalks except by criminal prosecutions.

The Sacramento Seminary is one of the prominent educational institutions of the State. It was founded by the late Hermon Perry and his accomplished wife nearly twenty years ago, the school being opened in June, 1862. Since that date its growth has been steady and constantly progressive.

From an humble beginning it has advanced to the front rank among the educational agencies of the Pacific slope. The Seminary is intended to give young ladies a practical education, beginning with them and power of a nation is not in what it produces from the earth but depends upon the as children in the primary grades, if need be, and taking them through the academic and finally graduating them in the collegiate course. Both Mrs. Christianory and Haight told me not to tell this occurrence.

On the 21st of August Haight and Mrs. Christianory were chatting in the parlor. George continues: I went into father's bedroom and father told me that he had seen Mrs. Christianory sitting on Haight's lap, and he oid not like it. He finally consented not to say anything about it. At the time I thought it was best not to say anything consented not time was the next adjoining father's and Mrs. Christianory sand I coull has everything that was said between the two rooms. Sunday morning, the 24th, before I was up, I heard Mrs. Christianory. She wished she had some sort of a poultice or plaster, and father said he looked out the door and saw Haight. Then he came back into the bedroom and I heard him say from the sitting room that some one was ringing the bell, and he looked out the door and saw Haight. The depositions have now been taken and forwarded to Washington. George A. Christiancy testifies as follows:

Mr. Haight and Mrs. Christiancy and myself left Lima Saturday, the 6th of August, 1879, for Chiels. The trip had been arranged the evening that Haight called—the day he arrived back from the Scuth—when we arranged to go. Father asked Haight to accompany Mrs. Christiancy and myself, as accompany Mrs. Christiancy and myself, as he was not certain whether he could go, as he was not well at the time, and did not know whether he would be able to go Saturday whether he would be able to go the company Mrs. Christiancy and myself went up alone.

In this excursion, which lasted some days, George said he witnessed great familiarity between Haight and his stepmother. On one occasion, he says, she sat in Haight's lap and combed his hair.

HENRY LABOUCHERE, THE "PERSONAL" JOURNALIST.

Few newspapers are oftener quoted than the Truth, the portrait of whose editor and proprietor heads this sketch.

Henry Labouchere was born in London, in 1831. He was educated at Eton School and the University of Cambridge. Upon leaving college he traveled in Mexico, part of the college he traveled in Mexico, part of the time as assistant in the business department of a circus, with one of the riders of which he had fallen in love. He then came to the United States, and at St. Paul, Minn., joined a party of Chippeway Indians, with whom he lived six months. Tired of this he made New York his headquarters, from whence he applied to the English authorities for a diplomatic position at Washington. This was conferred. He held the position two years, and afterwards acted in the British diplomatic service in St. Petersburg, Munich, Frankfort, Stockholm, Florence and Constantinople. In 1864 he was elected member of Parliament for Windsor, Berks, but was unseated for alleged bribery. He was in Paris during the siege, and contributed the "Diary of a Besieged Resident" to the Daily News. After being with Edmund Yates on the World, he started Truth, a rival of the same, NEW YORK, May 24th.

ANSWERED.

The recent excitement in regard to Adulter ated Baking Powders has brought out a num-ber of letters from intelligent housewives, who are anxious to get all the real facts in the case. In a recent letter from a prominent and well-known San Francisco lady to Newton Brothers & Co. the following questions are propounded:
"As it is the carbonic acid gas which is the active agency in bread raising, will you give me the relative proportions of this gas in your own and other Baking Powders? I desire to know. Also, please tell me how to experiment with the iodine test. I am much terested in this matter, as I want the best In reply we have to say that according to tests made by the Government Chemist, E. G. Love, Ph. D., whose authority must be G. Love, In. D., whose authority must be final in all such matters, the largest quantity of gas in any brand of Baking Powder, pub-lished as being analyzed by him, was 127.4 cubic inches of gas to each ounce of powder. Many of the brands tested were alum powders, which he characterized as very unwhole-same, and where tartaric acid was used he

says the powders liberate their gas too freely in process of baking, or, under varying climatic changes, they suffer deterioration.

We have liberate their gas too freely in process of baking, or, under varying climatic changes, they suffer deterioration.

We have liberate their gas too freely in MARKET. All of our goods are bought from the manufacturers. We buy nothing but first-class goods—the best that can be found in the United States. Will have a NEW CATALOGUE ON APRIL 1st. We herewith give extract from the analysis of the NEW ENGLAND BAKING POW-DER, as recently made by Professor Adolph Sommer, analytical chemist, of San Fran-pisco. He says of this Baking Powder: "It s carefully prepared from the best brands of bi-carbonate of soda and cream of tartar that

can be obtained. One ounce of this powder generates 174.7 cubic inches of gas." This shows a difference IN FAVOR OF the NEW ENG-LAND of 47 3-10 inches of carbonic gas per ounce of powder; or, in other words, 37 PER CENT. more strength than the highest test of any of

the other Powders. NEW ENGLAND BAKING POWDER

NEW ENGLAND BAKING POWDER contains a far greater proportion of the leavening principle than any Baking Powder now before the public. It is absolutely free from every sort of adulteration.

Now, in reply to the question concerning the IODINE TEST. Any housewife may try it for herself. She has but to dissolve a small quantity of the Powder in a glass of water, then add two drops of the Tincture of Iodine. The water will assume a slightly yellowish tinge if the Baking Powder is pure, but if adulterated with flour, starch etc. it but if adulterated with flour, starch, etc., it will almost immediately turn to a deep pur-ple color, and a deposit of the same color will be made in the glass.

After all is said and done, experience will

prove that the only true wisdom, the only safe plan, is to purchase the Baking Powder TWO PURE INGREDIENTS that ou mothers and grandmothers used with such pleasing results, namely BI-CARBONATE OF SODA and CREAM OF TARTAR, perfectly mixed, perfectly compounded and perfectly satisfactory. This is the NEW ENGLAND BAKING POWDER.

There are many at the age of thirty to sixty who are troubled with too frequent evaccation of the bladder, often accompanied by a slight smarting of burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sodiment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin milkish nue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs. a22-4ptf 1882. POOKBINDER, PAPER-RULER AND BLANE. LOUIS SLOSS & CO..
